

Project Development Phase

SPRINT 1

Date	04 November 2022
Team ID	PNT2022TMID44248
Project Name	AI based discourse for Banking Industry

1. Initiated the Watson Assistant creation process

The screenshot displays the IBM Watson Assistant console interface. At the top, there's a navigation bar with 'IBM Cloud' and a search bar. Below this, the 'Resource list' shows 'Watson Assistant-4s' with a green 'Active' status and an 'Add tags' link. The main content area is divided into two columns. The left column has a 'Manage' sidebar with options: 'Service credentials', 'Plan', and 'Connections'. The right column contains a 'Start by launching the tool' section with a prominent blue 'Launch Watson Assistant' button, a 'Getting started tutorial' link, and an 'API reference' link. To the right of this is a 'Plan' section showing 'Lite' and an 'Upgrade' button. Below the 'Launch Watson Assistant' button is a 'Credentials' section. It includes a 'Download' link, a 'Show credentials' link, and a text input field for the 'API key' which is currently empty. Below the API key field is a 'URL' field containing the text 'https://api.us-south.assistant.watson.cloud.ibm.com/instances/df17370f-101b-4...'.

2. Watson Assistant created
