

Project Development Phase Delivery Of Sprint - 4

Date	19 November 2022
Team ID	PNT2022TMID44248
Project Name	Project - AI Based Discourse For Banking Industry

Tasks :

- Run the Application
- Feature 1 – [Loan Updates](#)
- Feature 2 – [Savings and Current Account Opening](#)
- Feature 3 – [General Queries](#)

Run the Application

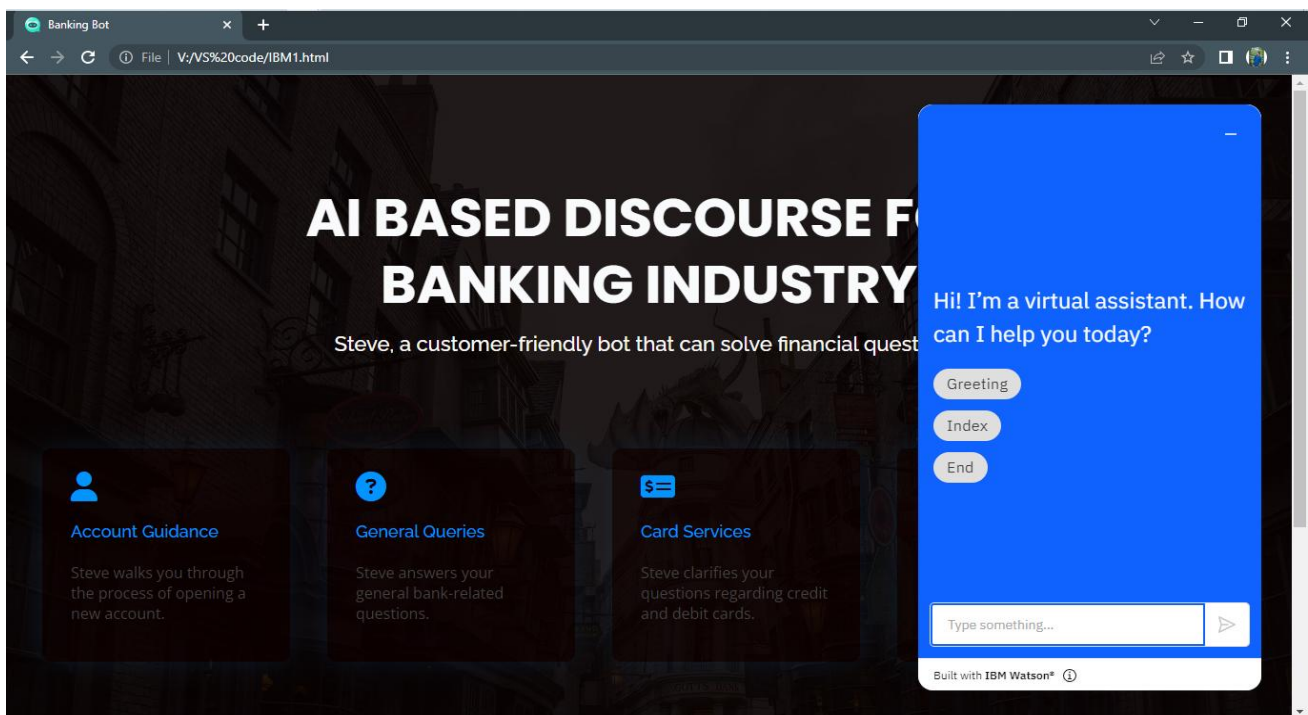

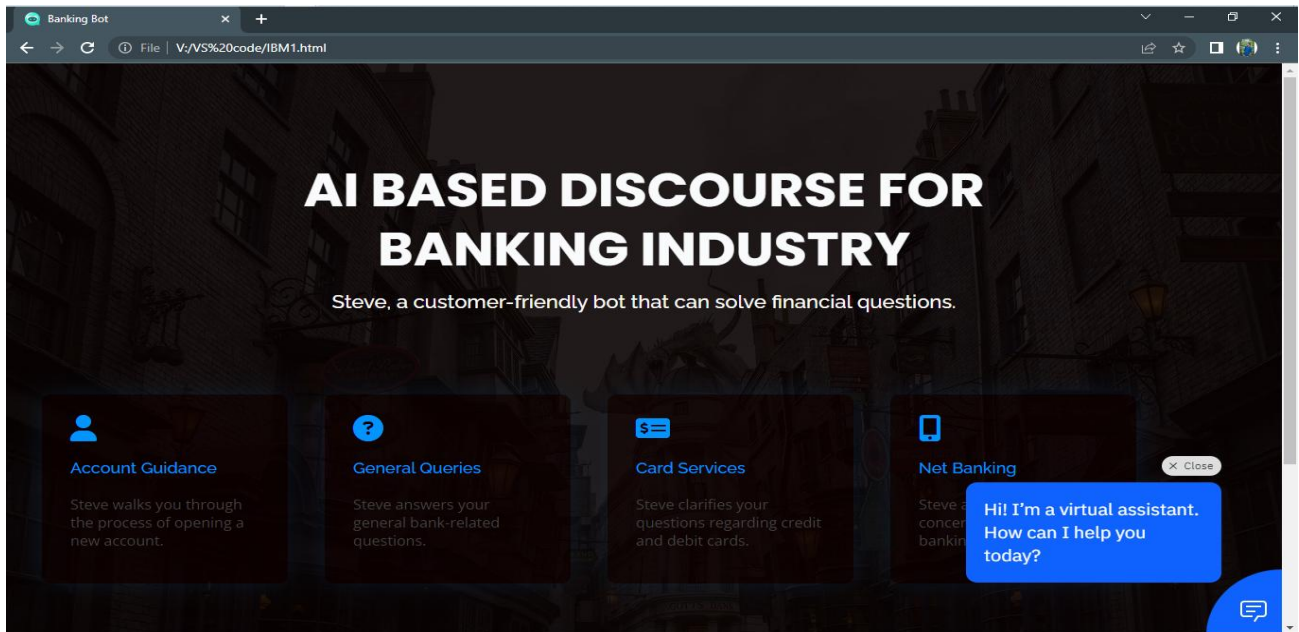

The screenshot shows a Visual Studio Code editor with a Python file named `app.py` open. The code is a simple Flask application that renders an `IBM.html` template. The terminal at the bottom shows the command `F:\BADI\IBM (AI)\IBM Project Github\Output>flask --debug run` being executed. The output indicates that the application is running in debug mode on `http://127.0.0.1:5000`. A warning message states: "WARNING: This is a development server. Do not use it in a production deployment. Use a production WSGI server instead." The terminal also shows the application restarting with state and the debugger being active. The status bar at the bottom indicates the file is `Ln 2, Col 1`, with 4 spaces, UTF-8 encoding, and CRLF line endings. The Python version is 3.10.4 64-bit.

```
1
2
3 from flask import Flask, render_template
4
5 app = Flask(__name__)
6
7 @app.route('/')
8 def bot():
9     return render_template("IBM.html");
10
11 if __name__ == '__main__':
12     app.run()
```

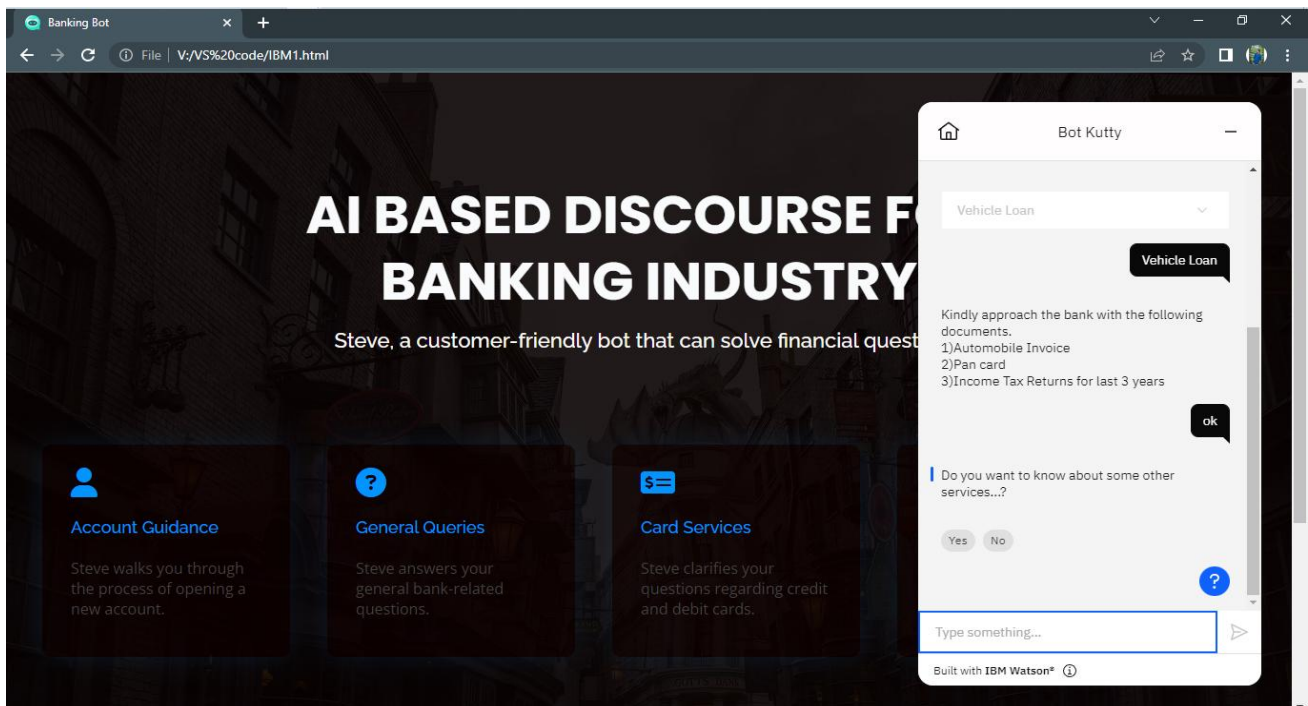

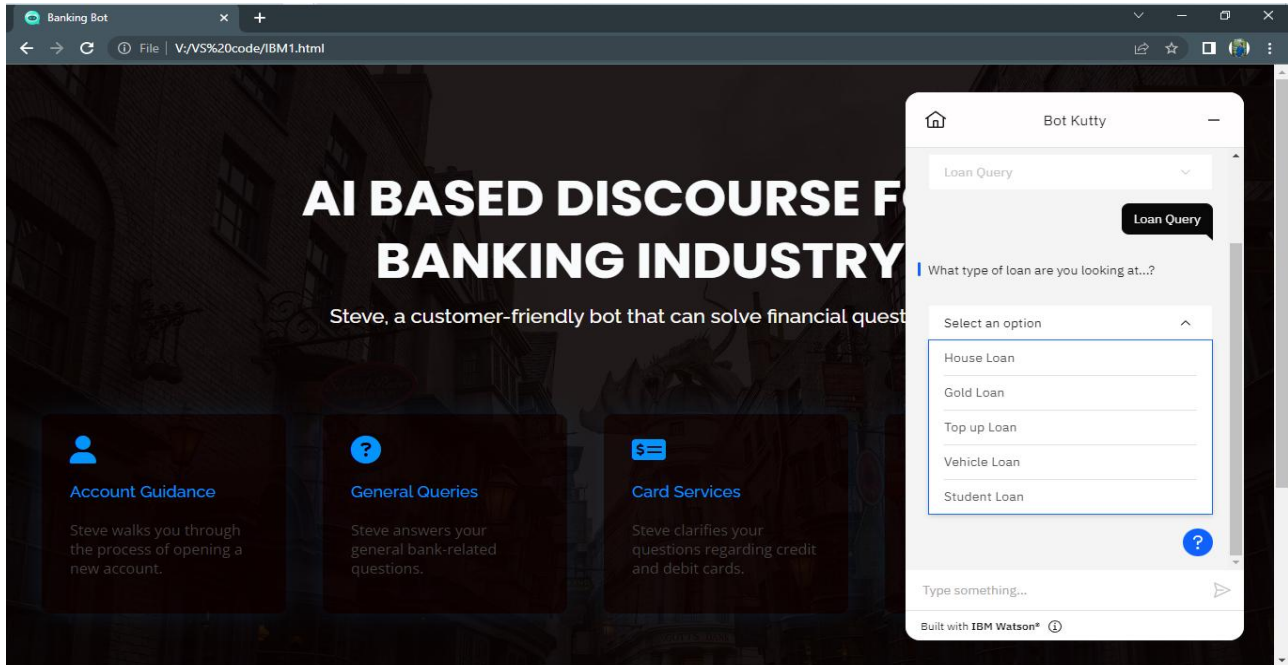

Terminal Output:

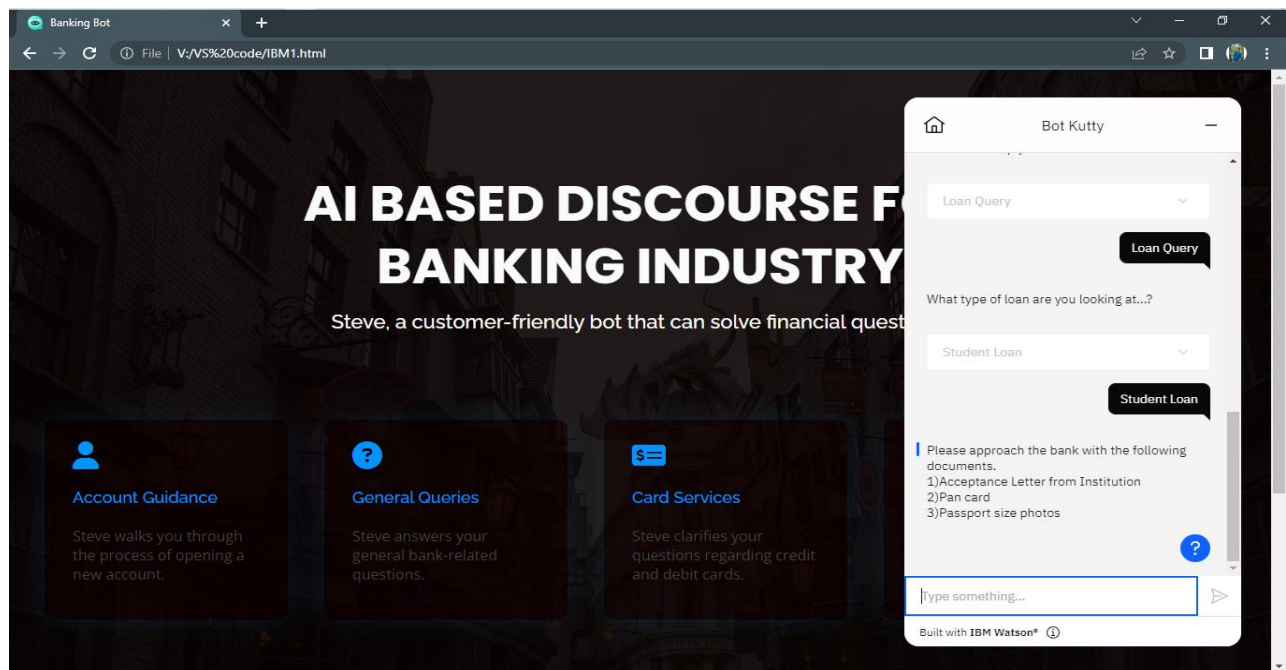

```
F:\BADI\IBM (AI)\IBM Project Github\Output>flask --debug run
* Debug mode: on
WARNING: This is a development server. Do not use it in a production deployment. Use a production WSGI server instead.
* Running on http://127.0.0.1:5000
Press CTRL+C to quit
* Restarting with stat
* Debugger is active!
* Debugger PIN: 359-355-730
127.0.0.1 - - [18/Nov/2022 15:23:08] "GET / HTTP/1.1" 200 -
```

Running the Webpage in the Browser

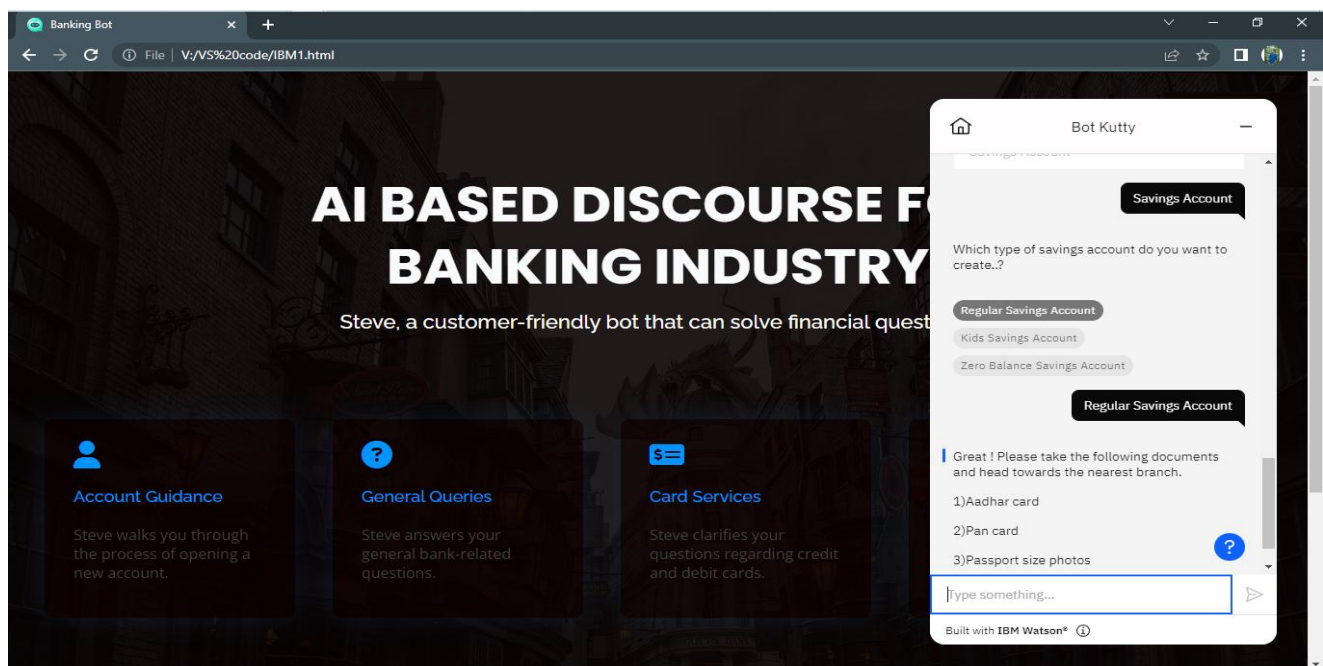

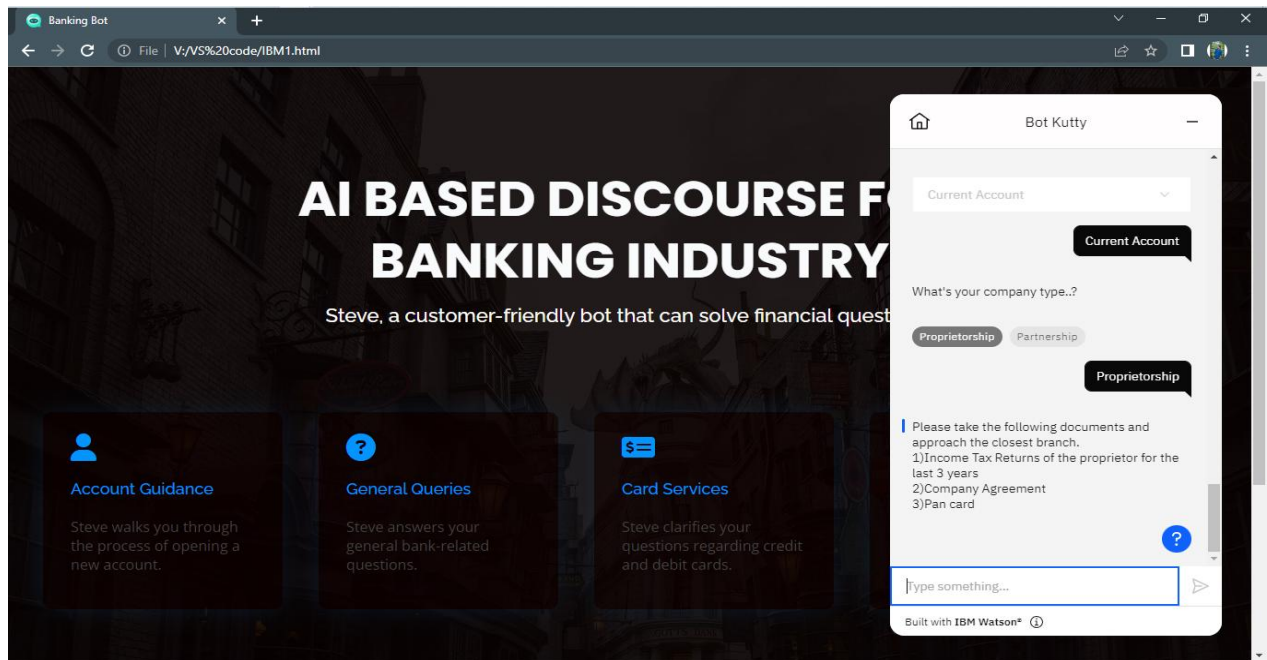

Feature 1 – Loan Updates

Feature 2 – Savings and Current Accounts

Feature 3 – General Queries
